HUDL Focus Camera

1. Go to Layer 5

2. Click your plus in a circle.

3. Add a Web Stream

4. Go to your two arrows on the left hand side of your screen

5. Go to your three dots and a circle

6. In the URL put your RTMP code.

   a. You can find the RTMP code for your HUDL camera in the HUDL Control App

7. Click apply.

8. Now the HUDL camera has a 1.0-1.25 second video delay and you will need to set an audio delay so your announcers and video are synchronized.

   a. If you do not remember how to set an audio delay refer to the section How to set an audio delay.

How to set an audio delay. (Needed with HUDL Focus Camera.)

1. Go to your Scroller in Layer 2

2. Go to your two arrows on the left hand side of your screen

3. Go to your shot layers (Three pieces of paper)

4. Click on your Microphone or Camera Audio shot in shot layers.

5. Go to your three dots and a circle.

6. There you can add an audio delay.

    a. Set this audio delay to 1.0-1.25 depending on your HUDL camera and your

       internet connection.
